Pramika Velavan

8015653706 | pramikav16@email.com | linkedin.com/in/pramika-velavan | github.com/Pramika-v

SKILLS

Languages: Python, SQL

Technologies & Tools: Gen AI, LLMs, RAG, Langflow, Git, Github, MS Excel, Tableau

Soft Skills: Problem Solving, Communication, Team Collaboration, Active listening

EXPERIENCE

Deloitte Data Analytics (Virtual) Dec 2025

Data Analyst Intern

- Completed real-world consulting-style data analysis by collecting, cleaning, and classifying datasets to support business decision-making, resulting in actionable insights for stakeholders.
- Designed and developed an interactive Tableau dashboard to visualize key performance metrics, enabling data-driven recommendations and clearer reporting.
- **Tools and Technologies:** Python, MS Excel, Tableau

TourOn(LotsTravel Holidays LLP) June-Aug 2026

Web Development Intern

- Updated and enhanced the company's official website by implementing responsive UI improvements, optimizing existing features, and ensuring a seamless user experience across multiple devices.
- Implemented new website features and modified existing web pages by leveraging AI-assisted development tools for code generation, debugging, and performance optimization.
- **Tools and Technologies:** HTML, CSS, JavaScript, Claude AI, AI-assisted Development

Projects

Detection of Phishing URLs Using AI/ML Nov 2025

Cybersecurity

- Developed an AI-powered phishing URL detection model using Python, Scikit-learn, and Machine Learning algorithms by analyzing URL patterns and engineered features. Performed data preprocessing, feature engineering, model training, evaluation, and classification to accurately detect malicious URLs.
- Strengthened expertise in AI-driven cybersecurity by applying supervised machine learning techniques to a real-world phishing detection problem.

GraphMind AI: LLM-Powered Knowledge Graph Search Engine June 2026

AI

- Developed an AI-powered knowledge search platform by integrating LLMs, Retrieval-Augmented Generation (RAG), Knowledge Graphs, and Vector Databases to provide accurate, context-aware answers from connected data sources
- Enabled faster and more accurate knowledge discovery by reducing irrelevant search results and providing context-aware, explainable AI responses.

Education

Jeppiaar Institute of Technology Sep 2024 - May 2028

CGPA: 7.92

Bachelor of Engineering in Computer Science and Engineering Chennai, India

Certifications & Awards

Generative AI for Beginners (2026), AWS Cloud Security Foundations (2026), Google Analytics (2025), Infosys Springboard: Python Programming Fundamentals (2025), SQL Fundamentals (2025), Deloitte Data Analytics (2025)
